

*Come and discover what makes TAC so special!*

# TAC PHILOSOPHY

Did you know that a child develops 90% of its adult brain by the age of 5?

At TAC we have based our entire philosophy on this.

We believe in putting the wellbeing of the toddler first and giving him opportunities to develop his skills at his own pace under the guidance of our attentive staff, by providing a wide range of materials to aid learning and an all inclusive development program.

Our motto is education through play.

We believe that a child must be nurtured so as to arouse his curiosity and enthusiasm for learning.

We aspire to create a well-balanced, confident and happy child and provide a strong foundation so that he can face the challenges ahead.

With this in mind, TAC brings to you the best in child development via our preschool The Mango Tree as well as our Activity Centre.

## TESTIMONIALS

*"My son Kian is enjoying Mango Tree tremendously! Even on days when he's sick, he cries to go. Needless to say, he's learning a great deal."* Mother of Kian, 2 years old

*"Little Ustaad's Team has been a big part of the upbringing of my toddler. Due to the music classes, Mihir was a disciplined child from the beginning. He was the only one not to cry at his first day in Playschool because he was already aware of team bonding and the feel of classes."*

Mother of Mihir (3 years old)

*"My daughter really enjoyed her days at the school especially Little Ustaads class, where she got a chance to play different musical instruments. She also had a great time participating in the school Sports Day."*

Mother of Amara (3 years old)

*"Formative years of any child are very important and I can proudly say that my daughter's base to live life in a good way has been formed at the Mango Tree preschool."*

Mother of Tvisha (3 years old)

*"My daughter attended The Mango Tree Preschool and was extremely happy with their attitude, cleanliness, professionalism and the experience of the teachers. They have small batches and a great teacher:child ratio and most importantly my daughter was very happy there."*

Mother of Priya (2 years old)

# THE MANGO TREE

This is a pre school program based on research and internationally accredited practices for an all-round development of the child.

We have incorporated the best of the Montessori System and the Play-way method to evolve teaching practices so as to take care of all aspects of child development - intellectual, physical and social.

## MOTHER TODDLER (8months to 18 months)

Fun-filled physical play and activities combined with music, song and dance. An opportunity for mother and child to share and explore different materials and activities

## PLAYSCHOOL (18 months to 2.6yrs)

We strive to create a happy atmosphere in the classroom where each child works at his own pace, in small groups, guided by our teachers who make learning a stimulating adventure.

## NURSERY (2.6yrs to 3.6yr) - LOWER KG (3.6yrs to 4.6yrs) HIGHER KG (4.6yrs onwards)

It is a full 3-year program. We aim to stimulate the child by the use of a varied curriculum.

### Social Skills

are developed at every level as they learn to interact with children of all nationalities in small groups.

### Mathematics Skills

are developed with the help of logic and reasoning.

### Field Trips

are undertaken to bring about an understanding of the world around them.

### Language Skills

are reinforced by the use of songs, phonetics, sentence building, and reinforcing vocabulary.

### Physical development

through play and our gym based program Tumble Tots that helps in the development of large motor skills, balancing, climbing, agility and coordination skills.

### Music

we believe has remarkable effect on the child's mental abilities and hence we have incorporated both Little Ustaads an Indian classical music program and Notes and Keys as part of the curriculum.

# THE ACTIVITY CENTRE

Children constantly need to play, have fun and discover the environment.

In our Activity Centre, we believe a happy child is a child that is stimulated by music and artistic activities, can express himself through physical activity, interact with other children and find many different ways to have fun.

We have programs developed internationally and in-house to help your toddler grow into a well-balanced and happy child!

## Tumble Tots

Shake it and move it, Baby!

Tumble Tots is a world-renowned physical play programme. It reinforces physical skills such as agility, balance, climbing and co-ordination.

The programme instills in them a healthy and active lifestyle and the confidence to reach their maximum potential.

## Little Ustaads

Beat a tabla, strum a sitar, groove to teen taal and rock to a ragal

Little Ustaads allows children and parents to discover and appreciate the world of Indian classical music through rhythmic tunes, rich vocals, mini instruments and vibrant visuals.

The carefully designed content will promote emotional development, hand and eye coordination, mental stimulation, auditory refinement and exploratory play in a fun and effortless manner.

## Notes & Keys

One and a Two and a One Two Three Four...

Notes and Keys is a fresh alternative music programme for little people based on tunes for big people. See how we get your little ones tapping to jazz, heads bopping to rock and fingers snapping to Broadway beats. Accompanying the pop music, we have rhymes and grooves from around the World, award-winning stories by notable authors, elementary musical theory and plenty of time for letting out energy through song and dance.

## Holiday Camps

TAC offers exciting and innovative themed camps throughout every holiday season. All our camps follow exciting weekly themes, such as "When I Grow Up", "Spooky Science" and "Zoom Zoom Here we Go" which add a dash of imagination to a child's play. So if you are looking for something fun and productive for your child to do when your child is not in school, we guarantee that your child will never get bored, as they experience something new and exciting each day. Our instructors fill each 2 1/2 hour camp with fitness and fun, group activities and special events which give them time to interact and build their social skills - all in a non competitive, nurturing environment. Our youngest campers are 18 months plus!

## Birthday Parties

TAC Birthday Parties are a mix of silliness and big time FUN - the perfect ingredients for an unforgettable day. The parties are private and parents love that they can relax while the TAC Team takes care of everything. If you would like us to host your child's next birthday party, contact us now!

# PRACTICAL INFORMATION

To each  
age its  
fun...
